Anleitung zum Maßnahmen

Am Körper vs. am Kleidungsstück ZWEI ARTEN ZU MESSEN

KÖRPER

Am Körper gemessen: Das Maßband liegt eng an, ohne einzuschnüren — ein Finger passt darunter.

KLEIDUNGSSTÜCK

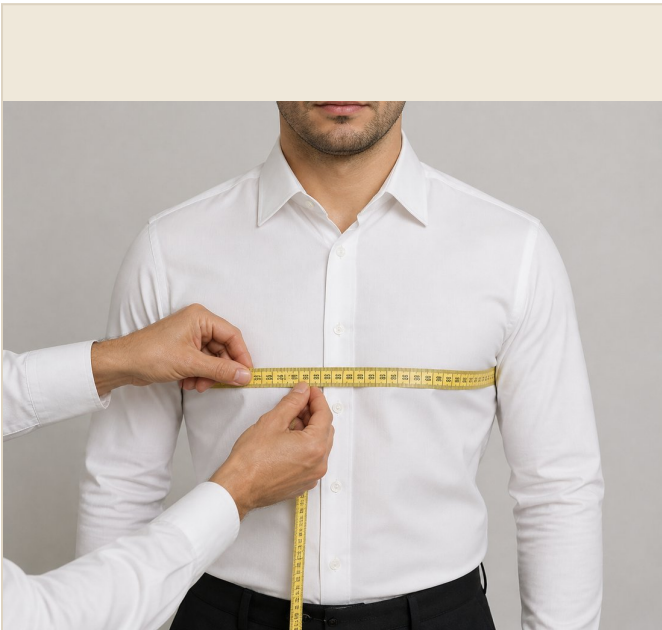

Das Kleidungsstück liegt völlig flach; an den gezeigten Positionen messen. Flachmaße für Umfänge verdoppeln.

Geben Sie immer an, ob ein Wert am Körper oder am Kleidungsstück gemessen wurde — die Werkstatt berechnet daraus die Zugabe. Jede Messung zeigt die Körper- und die Kleidungsstück-Methode nebeneinander; ein einzelnes Bild bedeutet, dass die Messung nur auf einer Seite verwendet wird.
